STAT

TOPICS, PLANS, AND LITERATURE FOR CHATS IN FEBRUARY 1952

1. Comrade Stalin's speech on 9 February 1946 ^{is} on the program for the struggle of the Soviet people to build Communism in the USSR.

1. Comrade Stalin on the immeasurable superiority of the Soviet social and state organization over the capitalist organization.

2. I. V. Stalin on the immediate and long-range objectives of the Communist Party.

3. The successful fulfillment of the Postwar Stalin Five-Year Plan.

4. The fulfillment of the Stalin plan for the transformation of nature, including the construction of gigantic hydroelectric stations and canals ^{is a great contribution to} ~~is a great investment in~~ the building of the material and technological foundation of Communism.

5. From day to day, from month to month to fulfill and over-fulfill the state plans and tasks is to strengthen the power of the socialist Fatherland and to fight to bring the day of the victory of Communism in our country closer.

LITERATURE

I. V. Stalin, Answer to a Letter from Comrade Ivanov, State Political Publishing House, 1940, pages 6-15.

I. V. Stalin, The Speech at the Preelection Meeting of the Voters of the Stalin Electoral District of Moscow, 9 February 1946, State Political Publishing House, 1946.

A. Grigor'yev, "Improvement in the Use of Techniques and Problems in the Organization of Labor", Bolshevik, 1951, No 13, pages 20-30.

7. We must develop socialist competition to reduce the metal consumption in manufactured articles.

1. The importance of metal in the development of the USSR national economy and defense capacity.

2. The proposal of the young workers and specialists of the Automobile Plant imeni Stalin to initiate socialist competition to reduce the ^{consumption} ~~output~~ of metal per unit of production and, ^{at the same time, to achieve} ~~to achieve~~ high production standards is clear proof of the toilers' desire to strengthen the USSR.

3. To perfect the design of an article, to improve technology, to make rational use of waste products and metal substitutes are the important tasks of industrial workers.

4. The creative cooperation of the engineers, technicians, foremen, and Stakhanovites in the struggle to save metal is a necessary condition for the proper and complete use of the inner reserves of production.

5. We must develop socialist competition widely to reduce the output of metal in each article while guaranteeing high quality.
